## Having trouble getting chords and rhythm together?

And why isn't this chart in TAB? This chart uses professional standard rhythm notation: it's how real charts are written. The reason you don't see it much in online TAB charts is because it can't be created from a computer keyboard. To learn more about professional rhythm notation check out **Modern Guitar Chord Styles, Volume 1**, an all new, systematic approach to learning chords, strumming patterns, rhythm reading, bar-chords, chord-change techniques, and more!
