

# Who'll Stop The Rain

Creedence Clearwater Revival

Verse & Chorus

## Handy hints

In the intro you need to hold the little finger on the 1st string; sometimes E minor includes this note but in the verse just play the usual Em. The small 'o' over the last upstroke strum in the verse rhythm is an 'open-chord change' - it tells you to change to the new chord whilst playing this strum. To learn more about this and popular strumming patterns, refer to pages 20 - 23 in *Modern Guitar Chord Styles, Volume I* - it's absolutely the best book you'll find dealing with rhythm guitar essentials.

To change key: use Capo at II for the key of A Major; III for Bb Major; or at V for C Major. To learn more about using a capo to alter the key of a song see pages 36 - 37 in *Modern Guitar Chord Styles I*
